

Ten Dollar Dog

Tesla Rossa

I have a dog called johnny cash coz he's all black
I only paid ten dollars and i aint gonna get it back
A duplex home with broken walls down in nations town
I played some songs, you showed me tricks
Before we tore it down
You know that rumbling sound

I lived alone in two-thousand nine when we were on fire
Louise street's the place you move in a boy and walk out a man
But i learned to hold your hand
And started making plans
You'll never understand

Trapped like sardines in a tin can just facing each other
What makes it worse is being stuck between your girl and her mother
We get too loud but we're too proud so we turn it up
