

# Run

## Elsa & Emilie

Streetlights, all night  
We're alive, but we're not alright  
And now our thoughts are running wild  
Sorrow, hollow  
Is what we feel when we're alone  
But we won't be headed home  
We'll separate day by day  
But we won't carry on  
'cause we are far too young  
To mess it up but had enough  
Constantly on the run  
But we are not getting home

Won't you carry me  
Won't you carry me  
Out of the darkness  
Won't you carry me  
Won't you carry me  
Out of the cold  
won't you carry me  
Won't you carry me  
Out of the darkness  
But don't you carry me  
Don't you you carry me  
Home

Sad face what a waste  
No one ever left a trace  
Of the sour bitter taste  
Watching, driving,  
Passing by feeling alive  
Like you never change you mind  
Slip away day by day  
But we won't carry on  
But we are not getting home

Won't you carry me  
Won't you carry me  
Out of the darkness

Won't you carry me  
Won't you carry me  
Out of the cold  
Won't you carry me  
Won't you carry me  
Out of the darkness  
But don't you carry me  
Don't you you carry me  
Home
