Closer

Breaking Pangaea

And you say that we've already made it
And you say that we've already won
Well, I say if we've already made it
Then this love must have already died tonightIt goes on, it goes on
It goes on, it goes onSo you say that we've already made it
And you say that we've already won
Well, I say if we've already made it
Then this love must have already died tonight, tonight, tonightIt goes on, it goes on
It goes on, it goes onIt goes on, it goes on
('Cause we've already made it)
It goes on, it goes on
('Cause we've already made it)It goes on, it goes on
(So you say that we've already made it)
(We've already made it)
It goes on, it goes on
(And you say that we've already made it)
(We've already made it)It goes on, it goes on
(And you say that we've already made it)
(That we've already made it)
It goes on, it goes on
(And you say that we've already made it)
(That we've already made it)It goes on, it goes on
(And you say that we've already made it)
(That we've already made it)
It goes on, it goes on
(And you say that we've already made it)
(That we've already made it)
