

Cool Light

Bear In Heaven

All night in your own bed
Cool light hanging on
In a sequin coat
Shimmering in the moonlight Pour through all your sweethearts
Talking to yourself
I might be there hovering just a little bit
I might be there shimmering in the moonlight Im watching you
Im watching you
Im watching you Too late now im long gone
Talking to myself
Wearing a sequin coat
Shimmering in the moonlight Warm light washes the sky
Youre weird when hes around
I might be there hovering just a little bit
I might be there shimmering in the moonlight Im watching you
Im watching you
Im watching you And i hope that you dont mind my looking after
Every moment that I turn around to look at you
