From Now On

The Features

Dreamed last night of a time and place
Where from our troubles we had escaped
I held your hand and felt complete
As you turned and said to me
From now on
From now on...will be
you and me we will be
From now on
From now on...will be
You and me
you and me we will beYears went by and nothing changed
The love we shared just stayed the same
As hair grew grey on top of our heads
Every night I quietly said
From now on
From now on...will be
you and me we will be
From now on
From now on...will be
You and me
you and me we will beOnly your dreams
Only your dreams
Only your dreams
From now on
Only your dreams
From now on
Only your dreams
From now on
Only your dreams
From now on...
You and me
you and me we will be
