

# Always The Same

John Farnham

There's a young girl working the corner  
There's an old man lost at sea  
They could tell you a million stories  
About the wrong side of the street  
There's a rich man making money  
From a poor man's misery  
It's always the same  
Always the same, fight for survival  
Whatever we do today  
Don't make tomorrow the same  
Fight for survival  
Forget about yesterday  
Don't make tomorrow the same  
There's a runaway looking for shelter  
An innocent heart that bleeds  
There's a blind man playing for pity  
Says it's the only way to make ends meet  
And he's living of his hard luck story  
Says he's a victim of society  
It's always the same  
Always the same, fight for survival  
Whatever we do today  
Don't make tomorrow the same  
Fight for survival  
Forget about yesterday  
Don't make tomorrow the same  
The seasons come and go

And all the questions of why  
How will we ever know if we never try?  
Always the same, fight for survival  
Whatever we do today  
Don't make tomorrow the same  
Fight for survival  
Forget about yesterday  
Don't make tomorrow the same  
Fight for survival  
Whatever we do today  
Don't make tomorrow the same

Fight for survival  
Forget about yesterday  
Don't make tomorrow the same  
Fight for survival  
Whatever we do today  
Don't make tomorrow the same  
Fight for survival  
Forget about yesterday  
Don't make tomorrow the same  
Fight for survival  
Whatever we do today  
Don't make tomorrow the same  
Fight for survival  
Forget about yesterday
