Change My Ways

Jordan Knight

I've seen the crystal ball
And I got a lot to mend
I drank a thousand nights
I had a million friends
I watched the world go round
At speeding light and then
Sometimes she walks the hall
I hope it never ends
Chorus:
No other woman gets to me the way you do
Baby I would change my ways
If I could be with you
Make me your lover
I'll make your dreams come true
Baby I would change my ways
If I could be with you

Sometimes it takes a light
To see the room you're in
You got it all around
You recognize the sun
I don't wanna use the sun
To melt away my blues
I need you to keep me warm
And give me something true
Chorus
I've seen the crystal ball
And I got a lot to mend
Do you save a helpless flame
Or rather watch it burn
I need to read from you
'Cause I gotta lot to learn
Chorus (repeat)
