

Game of Diamonds

Deerhunter

No one ever talked to me
Now I've forgotten how to speak
A problem with my chemistry
Now I can't sleep and I won't, eat
As soft as a stranger's hand
I counted every grain of sand
I walked every inch of land, I know So strong, I know
So strong, I know
So strong, I know
So strong, I know No one ever walked with me
I got so tired on my feet
I lay drunk on the bowery
Time never meant much to me
As soft as a stranger's hand
I counted every grain of sand
I walked every inch of land, I know So strong, I know
So strong, I know
So strong, I know
So strong, I know
So strong, I know
So strong, I know
So strong, I know
So strong, I know
So strong, I know
