

# Spirit

## Enrique Diaz

Freedom don't come easy, babe  
When your spirit's flyin' up among the clouds  
And when you're faced with wise man's road  
    You gotta know where to go  
Sun and the stars are travellin' man's companion  
    Leadin' the way for his journey  
    East and west wherever you go  
        Hmm  
        Leadin' the way  
        (Ooo)  
        The first to come  
        Showin' the way for his children  
        Now it's up to you  
        (Ooo)  
        Do you know you're pullin' through  
        Man, it's not easy and you know it  
        Children in a happy place they're always smilin'  
        Showin' all their love with no deception  
        Treatin' each other like brothers and sisters do  
            Yeah, yeah

Children in a real good place they're always tryin'  
Jumpin' and playin' in the middle of the afternoon  
    Just havin' a ball, don't worry at all, yeah  
    Leadin' the way  
    (Ooo)  
    The first to come  
    Showin' the way for his children  
    For now it's up to you  
    (Ooo)  
    Do you know you're pullin' through  
    Man, it's not easy and you know it  
    Children in a happy place they're always smilin'  
    Showin' all their love with no deception  
    Treatin' each other like brothers and sisters do, yeah  
        Yeah, yeah  
Children in a real good place they're always tryin'  
Jumpin' and playin' in the middle of the afternoon  
    Just havin' a ball, don't worry at all, yeah
