Do You Believe In Love

The Hollies

Mmm no, oh yeah
Just one day if I could hold you in my arms
Close to my heart where you belong
Love of my life you really are
Still be showering you with kisses like snow in winter
Remember back in the day we were like best of friends
But we were falling in love we never could pretend
Night after night, we used to talk about me and you
The things we'd do together forever
Do you believe in love and the promise that it brings?
You'll never grow apart, well that's what she said to me
Why did you have to go? We were inseparable
You and me will always be together for eternity
Just one day, if I could touch your face again
Words can't describe how I'm feeling
If I could turn back the hands of time
I'd still be holding on wishes that you left behind
Remember moments when there was nothing better than
A stroll in the park walking hand in hand
I'll never forget the times we talked about me and you
The things we do together forever
Do you believe in love and the promise that it brings?
You'll never grow apart, well that's what she said to me
Why did you have to go? We were inseparable
You and me will always be together for eternity
The words you said to me before you slipped away
Are still with me girl to this very day, yeah
In everything I do to everything I say
You'll always be the sunshine in my life and yes I believe in love
Do you believe in love and the promise that it brings?
You'll never grow apart, well that's what she said to me
Why did you have to go? We were inseparable
You and me will always be together for eternity
Do you believe in love and the promise that it brings?
You'll never grow apart, well that's what she said to me
Why did you have to go? We were inseparable
You and me will always be together for eternity
