Nights

ImJaeHall

Why you so tired in the night time?
That's when my visions come alive
I can see the envy in you eyes
Come see how it feels to be alive

Chorus(x2)
Why you so tired in the night time?
That's when my visions come alive
I can see the envy in you eyes
Come see how it feels to be alive

Vers 1
Went on tour four months ago
I still can't shake the hoes off
Stopped doing drugs like a month ago
I'm still here getting cold thoughts
Rap shit is too easy
Now I'm on my Luther Vandross
[Oohhohhh]
But I can't tell you what them notes are
Told old girl to pull up
She was taking long so I dozed off
Palm trees how I throw shade
My next bitch ain't drinking lemonade
That shit be giving her to much say
Walking round the crip like she 'jonce
Being home is my vaca
But trumping when it's time to vaca
I ain't really with the play play
Nighttime's when I upgrade
Got a {yah-ting} she my {ca-tey}
Treating beef like a PatÃ©
Yeah, nigga
new ideas got me wired
Uh, I can't sleep when I'm tired [hoe]

Chorus(x2)

Vers 2
Old chics and hatin niggas

There really ain't no difference 'bout it
Put the culture in my hands bro
I can make a difference bout it
I done make it through the trenches
I'm {waiting} plaques like a dentist
I'm a menace with the vibes
These {ideas/idioms} I can't describe
There's nothing doctors can't prescribe
Shit I'm like a walking high [uh]
Motherfuck a suit and tie
I'm 'bout to over analyse
{Cut up genes with the human races}
Astronauts don't get this fly [uh]
Hoe I'm wavy I can sing you through it
Come and hear this lullaby
{Dealing shit like in playing spades}
{I sauce a order up a bolognese}
Shawty on me for like four days
She wanna let the Dragon out the cage
Yeah, nigga
These ideas got me wired [uh]
fuck sleep let's get higher

Chorus(x2)

Outro
Thats when visions come alive
I can see the envy in your eyes
Come see how it feel to be alive...
