# Too Experienced

## Barrington Levy

She doesnt want me..... around
She's got something to hide
I think she want's a clown, someone to take for a ride..... What I
keep telling her,Chorus: Im too experienced to be taken for a stroll.....too
experienced for someone to rock and roll, Im too experienced to be taken
for a ride, and I know its not my foolish pride.....She hates the site..... of me
because I turned her offer down
She's always saying we were meant to be
somehow she thought Id be her clown
And this is what I sing:Chorus: Im too experienced to be taken for a
stroll..... to experienced for someone to rock and roll, Im too
experienced to be taken for a ride, and I know it's not my foolish prideShe doesnt want me around
she got's something to hide, I think she wants a clown, someone to take
for a ride, this is what I sing (back to chorus)
