Life In Sunshine

Jamie Mcdell

I know we'll be alright
I'm sure this time
Today it's warm outside
Today we're fine

These days we live our lives
Like there's more to see
But I've come to realize
What's in front of me

Chorus:
I'm so hot got my feet on fire
I'm so gone turn the beat up higher
And we know we're living life in sunshine
No time for stress we're all lazy
And tonight we're gonna go crazy
Cause we know we're living life in sunshine

This ain't no TV show
This is life right now
So turn up the radio
Sing this song out loud

There's nowhere you need to be
But right here beside the sea
Today I lost my mind and I feel alive

Chorus

This is the golden age
Driving in my car
So listen closely baby
I'm loving where we are

Chorus

This is the golden age
Driving in my car
So listen closely baby
I'm loving where we are

I'm loving where we are
