

War Against!

The Nerve Agents

I speak now of the merciless unseen
An invisible force feeds, malevolent

It's lokced up inside me

I will never be free from the disease...

It won't get the best of me!Aaarrghh!

My addiction, my intervention!Focus, refocus! easily said on paper

This is my life... and I want it... yes!

Sometimes I stumble

but I choose to fight, because my other option is deathYour spirit stands... aided by sticks and poles

Fragile...

Responsible for your own sobriety

You topple... everyone goes down with youWar Against!Let me go
