Half Angel Half Light

The Men

When the rout got rocky, rocky rout
It seemed I was all, but not enough
You came to me with a look in your eyes
And the odd you did, wasn't satisfiedLove is tricky for so long
I gave all my life as I gained all my soul
Keep thinking in the morning ground
I've been thinking when you were by my side all dayWe are the love wave tomorrow's time
Like people get life in the meantime
Where we are here is where we've met
Stuck in the town so I really missPlaying on for your tracky in the sand
With all your love is nobody in air
Love's in sinner and innocent
Waiting for days when the miracles to graveI felt down and I lost my soul
I locked then down and I was all alone
We are the love wave tomorrow's time
Like people get life in the meantime
