

Someone's Gonna Rescue You

Neil Young

Some were in the way of Sunshine
You find the dark some how when you see the spark
It burns your heartSomeones gonna Rescue you and bring you back
I see you standing there I hear you call
The way you look at me you donot see at allSomeones going rescue you before you fallno one can do the things
you do
Someone can save you
you scared of the way it goes sometime in the night
But it gets the best you you could help a fight
Someones gonna rescue you and make it rightSomeones gonna rescue youSomeones gonna rescue you.
