

Meddle

Guided By Voices

I'm never in your problems
You've never really been in mine
You're going over the middle
I'm crossing the line
I just wanna help
But you just really wanna argue
Won't you let it shine
What are dispositions
Can you make the right decisions
When our worlds collide? I'm never in your problems
You've never really been in mine
???

Not a very good sign
Find out what we're thinking
Now we're far too busy thinking
Something passed us by
Block it ???
Stay behind or pass them through
Won't you let them by
Let them by...
