Midnight Train

Ufo

(instrumental intro)
Oh my darling will you come to me
Shaking now just like a willow tree
So tell me what's the story
This track we'll ride to glory
Coming home
Pretty karla and her russian clothes
Clapboard house and a different nose
Love keeps a candle burning
These steel wheels are turning
Back for home
Come in out of the rain
Come out of the night
Out on the midnight train
Midnight train
Come out of the light
Come out of the rain
Riding the midnight train
Midnight train

Moscow lights, well they dim and glow
The taste is sweeter than it's driven snow
So tell me what's the story
This track to ride to glory
Coming home
Come out of the rain, come out of the lights,
Out on the midnight train, midnight train
Come out of the lights, come out in the rain,
Riding the midnight train, midnight train
(instrumental)
Oh my darling will you come to me
Shaking now just like a willow tree
Come out of the lights, come out in the rain,
Riding the midnight train, midnight train
Out of the rain, live again, riding the midnight train, midnight train
Come of the lights, into the rain, riding the midnight train, midnight train
One little strange, come back again
(instrumental fade out)
