Korn

[Verse 1]

It hurts to breathe but I don't care
The weight of the world, the thoughts I couldn't bear
The city sleeps, I'm making plans
The less you know, the better understand[Chorus]
Then I look and see that place
It fools me every time
Digging deeper pulls me under
Am I wasting time, or next in line?

[Verse 2]

I pace [?]

The reason we know but still we never learn
The clocks are still, my legs grow weak
It says it's done, I beg it not to speak[Chorus]
Then I look and see that place
It fools me every time
Digging deeper pulls me under
Am I wasting time, or next in line?[Bridge]
