Another Mistake

The Real Danger

(War!) War is calling for both sides to draw their arms. (getting ready to go)
Time for a talk is over now I'm looking for love. (and I'm looking for love)
Better be on your game. (today)
Better not miss your aim.
Be careful this will be just another mistake. (you make)
It'll be the last one you make

Another mistake
Another mistake
Another mistake ooh

Another mistake
Another mistake
Another mistake ooh

It's gonna leave you knocking on the door of death someday yeah
It burns!
Temperature rising, do you feel it starting to burn? (can you feel it burn)
Broken bones and blood is the only damn lesson you learn. (only lesson you learn
So you never wanna listen to me. (to me)
You say you got it all under control.
Waiting that you do this knowing what I know.
Know the path you going down and I don't wanna go.

Another mistake
Another mistake
Another mistake ooh

Another mistake
Another mistake
Another mistake ooh

It's gonna leave you knocking on the door of death someday yeah.
And it won't be just another bad situation or mistake yeah.
Fuck your mistakes they took me out of this.
What happened to you is not so obvious.
Cause your mistakes, they took me out of this.
You're just another mistake, another mistake.
Make your mistakes, they took me out of this.
What happened to you is just so obvious

Because your mistakes, they took me out of this.
You're just another mistake, another mistake.

Another mistake
Another mistake
Another mistake ooh

Another mistake
Another mistake
Another mistake ooh

Another mistake
Another mistake
Another mistake ooh

Another mistake
Another mistake
Another mistake ooh
