

# Say a Prayer

Taylor Dayne

Say a prayer  
Alright  
Say it, say it, say it, say it, say it  
Alright  
Say it, say it, say it, say it, say it Well, I remember when  
You were my only friend  
You took the time when on one else cared You gave love endlessly  
And then you proved to me  
No matter what, you'd always be there And now I understand  
Just how life's little plan  
Can make it rough to say 'forever' But you've been there for me  
So that's my guarantee  
That we always be together Alright  
Say it, say it, say it, say it, say it  
Alright  
Say it, say it, say it, say it, say it Say a prayer  
Alright  
Say it, say it, say it, say it, say it We've had good times that's true  
We've had our bad times too  
But through it all It makes us stronger We'll have to build our trust  
Because it means too much  
To give away to any other And now I understand  
Just how life's little plan  
Can make it rough to say 'forever' But you've been there for me  
So that's my guarantee  
That we always be together Alright  
Say it, say it, say it, say it, say it  
Alright  
Say it, say it, say it, say it, say it  
Say a, say a, say a, say a prayer And now I understand  
Just how life's little plan  
Can make it rough to say 'forever' But you've been there for me  
So that's my guarantee  
That we will always be together Alright  
Say it, say it, say it, say it, say it  
Alright  
Say it, say it, say it, say it, say it Alright  
Say it, say it, say it, say it, say it  
Alright
