Done Did

Odd Squad Family

[Intro: N.U.B.S]
Odd squad.. you know..
We done did everything.. We keep going..

[Chorus: N.U.B.S] (x2)
I done did everything they said I shouldn't do
I done did everything they said I wouldn't do
I done did everything they said I couldn't do
And with god as my witness I made it through!

[Verse 1: N.U.B.S]
It's Nubs, heh, ey
Love this point that I came to
Took one and then I made it two
Laced up and then I faced up to what made us
And then I made it through
Keep it going for my family
Show 'em all what I can be
Set examples for my son-
Show him what a real man be!
Let me tell 'em how I do it
No limits no excuses, no hands no legs-
But when you see me I be moving
Feel like I was born for music
I been tryna prove it ever since I knew it
I am just another human
Just a little more amusin'
You know nubs be the name
Smokin' dubs to the brain
I been doubted like forever
Underdog in this game
Underdog settin' flames
Yea we get down to business
If you're sleeping you'll awake
Only god as my witness

[Chorus: N.U.B.S] (x2)
I done did everything they said I shouldn't do
I done did everything they said I wouldn't do

I done did everything they said I couldn't do
And with god as my witness I made it through!

[Verse 2: Snowman]
Bite the bullet or swallow it
I'm full flavor like parliaments
Got class like cardigans
Oh I'm sure I know what the problem is
They don't wanna make a way for the oddest kids
But I'm positive that we got this shit
The workflow's on ten that's obvious
And the flow is on hippopotamus
And that's fat, that's facts
Only put my life on this wax
Even with this weight on my back
I still find a way to not lag
Full pressin' at all times
And you know what makes me mad
You really out here kissin' ass
Even when the pieces didn't match
You still wasn't gone put us last
I ain't never been fake and I ain't never owned a mask
But I've been picked on I remember they would point and laugh
But I made it past all that there ain't no fallin' back
Towards my goals I'm haulin' ass
And I'm still prayin' that we don't crash, yea
Chorus: N.U.B.S] (x2)
I done did everything they said I shouldn't do
I done did everything they said I wouldn't do
I done did everything they said I couldn't do
And with god as my witness I made it through!
[Verse 3: A-Factor]
We ain't come this far so we can say we did it
We just showin' y'all that every day we live it
Keep shootin' for the stars just know there ain't a limit
I'll be going hard 'til the day the reaper pays a visit
Did what they said I couldn't
I'mma do what they say I won't do
Without sayin' I shouldn't
Have to say that "I told you"
Proof is all in the puddin
But everyone has their own truth
God got me he wouldn't
Put me through anything I couldn't go through
Been through the mud like an old shoe

But my sole's clean and my nose too I'm still on the move
Wanna knock me out but there's no use
'Cause I won't lose that's what I won't do
Did you buy the dream that they sold you?
Or did build a team make your own move?
Fam stick together nigga no glue
And it's so true that I done did everything they said I shouldn't do
I done did everything they said I wouldn't do
I done did everything they said I couldn't do
And with god as my witness I made it through!
