Original Thought

The Explosion

Advisory - the following lyrics contain explicit language:

were you born with original thought?
did you get it of a discount rack
doesn't fit bring it back
did you know that when your old
your beat ideas are store bought?do you own what you say?
or did you steal from a pawn shop
borrow it from a loan shark
trade for some retro art
pay it back another day?leave it now hate it later
when your beat ideas weigh a ton
leave it now you will hate it
so shut your fucking mouth up for once
