Hear This

Number One Gun

And ill stay back as if you were never here
that is exactly how I've wanted it to be
A picture of the faces that were here
Will be followed by the words of you right nowWhat a simple thing to waste
What a silent thing to say
You are going all the way
All the wayYou are the answer being heard
From all the questions of right now
And soon the battery will burn
You are the one you are the one that will be found
