Prove You Wrong

Crossfade

Somedays are worst than others
Somedays I Can not feel a thing
Someday I might just prove you wrong
Something just might go my way

Today I've got something to prove to you
All these things I never do for you
Is making you angrier everyday
Pushing me farther away

(Chorus)
You make me a mess, I can't keep it together
Somehow, someway, I am gonna prove you wrong
I am gonna prove you wrong

Someday I might stay sober
Figure out where I went wrong
Making sense of what's left of me
Make a go of this alone

I've got nothing left for you
So sick of all the things you do
Turn your back on me everyday
You pushing me farther away

(Chorus)

Hey yea
*SOLO

You make me a mess
I can't keep it together
I fall away, and now I prove you wrong
Prove you wrong
Prove you wrong
