Anyone

Appleton

Sometimes they said that I was the crazy one
And sometimes they told me that it can't be done
And sometimes I feel it's time to think things over
And you feel I doThere's only so much time
I hope it's not too late
You know I'm waiting
For it to be saidAnyone who's anyone will tell you that I've been a fool
And everything and anything I never was allowed to do
And now I'm doing everything I can to make a dream come true
More for you can be done, now you can be anyoneThis time I see the future in my hand
And this time I know I'll try to understand
'Cos this time it's seems the final act is over
And you can feel it tooAnd now the child has grown
And I'm left on my own
You know I'm waiting
For it to be saidAnyone who's anyone will tell you that I've been a fool
And everything and anything I never was allowed to do
Now I'm doing everything I can to make a dream come true
More for you can be done, now you can be anyoneAnyone who's anyone will tell you that I've been a fool
And everything and anything I never was allowed to do
And now I'm doing everything I can to make a dream come true
More for you can be done, now you can be anyone
