Low

Kelly Clarkson

Everybody's talkin'
But they don't say a thing
They look at me with sad eyes
But I don't want the sympathyIt's cool you didn't want me
Sometimes you can't go back
Why'd you have to go and make a mess like that
Well I just have to say before I let goHave you ever been low?
Have you ever had a friend that let you down so?
When the truth came out
Were you the last to know?
Were you left out in the cold?
'Cause what you did was lowNo I don't need your number
There's nothing left to say
'Cept I never thought it'd hurt this much to be saved
My friends are outside waiting I've gotta goHave you ever been low?
(Have you ever been?)
Have you ever had a friend that let you down so?
When the truth came out
Were you the last to know?
Were you left out in the cold?
'Cause what you did was low
(Low)
What you did was low
(Low)
What you did was low
(Low)
What you did was low
(Low)Walk out of this darkness with no sense of regret
And I go with a clear conscience
We both know that you can't say that
Here's to show for all the time I loved you so, soHave you ever been low?
(Have you ever been?)
Have you ever had a friend that let you down so?
When the truth came out
Were you the last to know?
Were you left out in the cold?
'Cause what you did was lowHave you ever been low?
(Have you ever been?)
Have you ever had a friend that let you down so?

When the truth came out
Were you the last to know?
Were you left out in the cold?
'Cause what you did was lowHave you ever been low?
(Have you ever been?)
Have you ever had a friend that let you down so?
'Cause what you did was low
