Area 11

A music box, a lullaby, a restless sleep through an IV high
A whispered voice inside your mind, one day I will find you
I saw that you were lonely too, something broken inside you
I reached out and took your hand, you reached out and you took me

(Chorus)
I repressed that time, I locked it all inside
I locked it all inside, â€˜cause itâ€™s easier to hide
All the hurt, all the loss, all the lines between the dots
Everything that I forgot, I see it clearly
Regress into a child again, do you feel it now
Baby canâ€™t you see that youâ€™re losing your mind, that youâ€™re losing your mind
A shot to the head leaves it all behind, leaves it all behind and Iâ€™ll tear you apart
Reach out your hands and catch me, reach out your hands and you tear me apart
Reach out your hands and catch me, reach out your hands and you tear me apart

A music box, an alibi, but we are simply killing time
I wish Iâ€™d see inside your mind, I wish Iâ€™d seen inside you
Well this entropy, common ancestry
Almost the same, but not enough
Never forgiven, but still in love

(Chorus)
I repressed that time, I locked it all inside
I locked it all inside, â€˜cause itâ€™s easier to hide
All the hurt, all the loss, all the lines between the dots
Everything that I forgot, I see it clearly
Regress into a child again, do you feel it now
Baby canâ€™t you see that youâ€™re losing your mind, that youâ€™re losing your Mind?
A shot to the head leaves it all behind, leaves it all behind and Iâ€™ll tear you apart

Reach out your hands and catch me, reach out your hands and you tear me apart
Reach out your hands and catch me, reach out your hands and you tear me apart
Baby canâ€™t you see that youâ€™re losing your mind, that youâ€™re losing your Mind?
A shot to the head leaves it all behind, leaves it all behind
Baby canâ€™t you see that youâ€™re losing your mind, that youâ€™re losing your Mind?

A shot to the head leaves it all behind, leaves it all behind
Well baby canâ€™t you see that youâ€™re losing your mind, that youâ€™re losing
Your mind?
Another shot to the head leaves it all behind, leaves it all behind
Give me a warning now
