Raise A Little Hell Now

Shiloh

Hit the ground, look around, do you like what you see
Or is your world a little wasted?
Rock the bells, scream and yell, 'til you get what you need
We'll start a riot in the basement
Jump the line, get behind all the other soldiers in our little party
Make some noise girls and boys, let the sound of your voice get you out of your seat
(Everybody say)Hey- we're gonna raise a little hell now, hell now
Hey- we're gonna raise a little hell now, hell now
Ready or not baby here we come- gonna go all night 'til the morning sun
Everybody say hey- we're gonna raise a little hell now, hell nowCatch a ride, feel the vibe, takin' over the street
There's a new intoxication
Raise your hand take a stand, if you wanna be free
You gotta shake your generation
Jump the line, get behind all the other soldiers in our little party
Make some noise girls and boys let the sound of your voice
Get you out of your seat
(Everybody say)Hey- we're gonna raise a little hell now, hell now
Hey- we're gonna raise a little hell now, hell now
Ready or not baby here we come- gonna go all night 'til the morning sun
Everybody say hey- we're gonna raise a little hell now, hell nowJump the line, get behind all the other soldiers in our little army
Make some noise girls and boys, let the sound of your voice get you out of your seat
(Everybody say)Hey- we're gonna raise a little hell now, hell now
Hey- we're gonna raise a little hell now, hell now
Hey- we're gonna raise a little hell now, hell now
Hey- we're gonna raise a little hell now, hell nowReady or not baby here we come- gonna go all night 'til the morning sun
I said ready or not baby here we come- gonna go all night 'til the morning sun
