Any Other Day

Wyclef Jean

Today is not like any other day
This one's gone and turned a darker shade of gray
What will I have learned
Tell me, tell me, somebody tell me now
When this hard rain's gone away?There is a safe place that I used to know
It's the only place that I wanna go
Where else could I turn
Tell me, tell me, somebody tell me now
'Til this hard rain's gone away?Grandma, grandpa, mother, father, sister, brother, Lord
Please help the child, I heard the preacher say, it's so sad
I see the airplane, I hear the engine on the boat
But y'all can't see me waving the flag
Somebody please wave the flag, yeahGrandma, grandpa, mother, father, sister, brother, Lord
Please help the child, I heard the preacher say, it's okay
I see the airplane, I hear the engine on the boat
But y'all can't see me waving the flag
Somebody please wave the flag, yeahWhat will I have learned
Tell me, tell me now, somebody tell me how
When this hard rain's gone away?Today is not like any other day
So I'm gonna have to find another way
People, we got to find another way
Can you tell me how
Tell me, tell me, somebody tell me now
When the hard rain's gone away?I see them waving the flag
Tell the chopper over here, man, we're waving the flag
I see them waving the flag
Tell the boat over here, man, we're waving the flagMan, I'm waving the flag
Tell the chopper over here, man, we're waving the flag
Man, I'm waving the flag
Tell the boat over here, man, we're waving the flag
Waving the flag, waving the flag
