Settling In

Alborn Theory

I can see the way your staring, your confidences is fading
Your not as strong as you thought you where
Your title is misleading actually your cheating
But no one listen anymore
The only difference in meeee
Is who Im choosing to be
I played your game
I made a few mistakes
But i ask no question (And no suggestion)
So get the fuck of my face
Every ounce of anger comes out sooner or later the place is here and the time is now
I stole there attention and left you with aggression
You had the answer now figure it out
The only difference in me
Is everything inside of me
I played your game
I made a few mistakes
But i ask no question (And no suggestion)
So get the fuck of my face (high note)
Why are you running away
Is it difficult to face me
Knowing that you cant beat me nooo owo ow
I played your game
I made a few mistakes
But i ask no question (And no suggestion)
So get the fuck of my face (x2)
