

Space

Cub Sport

Last night I learned I hold the blade too close
I push too hard, it was never supposed to be like this
You say you'll set me free but I don't wanna leave oh

Don't wanna be set free

Grab my things but never leave this place

Don't wanna be set free

But you blast me out into space

Don't wanna be set free

Grab my things but never leave this place

Don't wanna be set free

But you blast me out into space

Last night I learned I hold your head too tight

Knowing full well, you won't put up a fight

And now you say you're gonna set me free but I don't wanna leave oh

Don't wanna be set free

Grab my things but never leave this place

Don't wanna be set free

But you blast me out into space

Don't wanna be set free

Grab my things but never leave this place

Don't wanna be set free

But you blast me out into space
