And So I Know

Stone Temple Pilots

And so I know it's begun again
Never be the same and with that I said
You'll never ever be this way again
Hold on till the end like it's the last hello
Whirlwinds and roller coasters
Long grass making shapes hello
Disappearing, disappearing floating graves
Never, ever, ever, ever be this way
You'll never ever be this way again
Never, ever, ever, ever be this way
And never ever be this way again
And so I know, it's begun again
Never be the same and with that I said
Campfire girls make me feel alright
Campfire girls make me feel alright
Campfire girls
