

# Keep You Safe

## Morandi

I feel you sad like the rain from the clouds  
I beg you stop crying before your tears run out  
I know you've been hurting too much for too long  
And I, I will always keep you safe and sound  
You will never be afraid in this town  
I will always keep you safe, you know  
You will never be alone no more La-la-la-la-la  
I'm gonna keep you safe  
La-la-la-la-la  
La-la-la-la-la  
I'm gonna keep you safe  
La-la-la-la-la

I see you carefree like the birds in the sky  
I want you, let me fix your broken wings, and fly  
'Cause you know this love can take us so high, high, high  
And I, I will always keep you safe and sound  
You will never be afraid in this town  
I will always keep you safe, you know  
You will never be alone no more  
I will always keep you safe and sound  
You will never be afraid in this town  
I will always keep you safe, you know  
You will never be alone, be alone, be alone
