

Feelings

Accept

1, 2, 3, 4 You gotta be a strong man
And know what you want
And fight everyone in your way You're the one who sweats
And what do you get
When someone else picks up your pay Hey, when you're fighting a wolf
It's a fight to the end with a pack You work all day long
You're stuck to the phone
Burn up a hundred cigarettes The yes men you know
They tell you no go
And dissatisfaction's all you get Hey, when you're needing a queen
Every card that you get is a jack Accept what we do
This message to you is rock forever and ever
We've still got to feel the music is real
And we'll rock n' roll forever, forever You gotta be strong
We rock n' roll forever No sword and no knife
Can help you survive
Survival is a business head A good deal you need
Or you're lost in their greed
You're rotten, helpless, dead Hey, when you're fightin' a wolf
It's a fight to the end with a pack Accept what we do
This message to you is rock forever and ever
We've still got to feel the music is real
And we'll rock n' roll forever, forever Accept what we do
This message to you is rock forever and ever
We've still got to feel the music is real
And we'll rock n' roll forever, forever Accept what we do
This message to you is rock forever and ever
We've still got to feel the music is real
And we'll rock n' roll forever
