

Show Me How to Love You

John Waite

Put on something pretty, baby
And turn down the lights
Let's leave the world outside the window
For just, just one nightAnd show me
I'll show you what my love is good for
And I'll always be there for you, baby
And I'll always be your man'Cause the touch of your hand
Smooth on my skin
In the midnight hour
Let it beginShow me how to love you
Straight through the night
'Cause I know you've got such a lot to giveShow me how to please you, baby
'Cause it feels so right
'Cause I know that you've been lonely
And hey, I've been lonely too, show me how to love you'Cause I know what you're thinking about
And you know what's on my mind
Light up those candles, baby
Let me pour you some wineAnd you'll show me
I'll show you what my love is good for
And you'll always be there for me, baby
To do whatever you can'Cause the touch of your hand
Smooth on my skin
In the midnight hour, baby
Let love beginShow me how to love you
Straight through the night
'Cause I know you've got such a lot to giveShow me how to please you, baby
'Cause this feels so right
And I know that you've been lonely
And hell, I've been lonely tooWe've got all the time in the world tonight
To do the things that lovers do
Show me how to love you, yeah'Cause I know that you've been lonely
And hell I've been lonely too, yeah babyShow me how to love you
Straight through the night
Show me how to please you, baby
This feels so rightCome on, show me how to love you
Tease you, please you, baby now
Show me baby, show me baby how to love you
And how I can please you 'cause I need to, baby, tonight, show meShow me how to love you
Show me how to love you now

Show me, baby
Show me how to love you
