Bonfire

Rhett Miller

Meet me by the bonfire
Underneath the north star in the sycamores
Tell me that you love me
I'll tell you what I will do forevermore
Close your eyes and see
What this could mean to you and me
Everything is going to change
Meet me in the meadow
Out amongst the shadows and the air so still
Tell me all your big dreams
Tell me 'bout the kind of world you wanna build
Living up to you is an enormous thing to do
Everything is going to change
Isn't it strange? Isn't it strange
How everything will change?
The night is young, the sky is deep
For all we know the whole world's asleep
We've got to let them go
The fire is hot but your hand is cold
Let's fall in love before we get old
Watch the fire glow, watch the fire grow
Everything is going to change
Everything is going to change
Isn't it strange? Isn't strange
How everything will change?
