

Black Hole

Famous

Well have you seen my friend
She got a wound to mend
You feel it grow inside
Just a thorn in your pride
Is this a life inside me
Are you just wasting my time

There you go
Living like a white girl in a black hood
With Jesus on your mind
The only answer to yourself
The only answer to this

Black hole in my brain
Television waves driving me insane
I will be nothing without you
There's a black hole in my heart
Gravity is always tearing me apart
I will be nothing, like nothing
Nothing without you

Well there's a choice to make
Another heart to break
When it all goes down
Its gonna drive you around
Is this your faith to guide me
Are you just tasting my wine
There you go

Living like a white girl in a black hood
With Jesus on your mind
The only answer to your
The only answer to this

Black hole in my brain
Television waves driving me insane
I will be nothing without you
There's a black hole in my heart
Gravity is always tearing me apart
I will be nothing, like nothing

Nothing without you

Well have you seen my friend
Coming to an end
Got that pain inside
With Jesus on your mind
Jesus on your mind
Jesus on your mind
Jesus on your
Jesus on this

Black hole in my brain
Television waves driving me insane
I will be nothing without you
There's a black hole in my heart
Gravity is always tearing me apart
I will be nothing, like nothing
Nothing without you
Nothing, nothing without you
Nothing, nothing without you
Nothing, nothing without you
