

Stop The Rain

[AWB](#)

Stop the rain in the night in my heart deep inside. Cold as ice with a heart full of lies

you're goin' your own way.

I wait on the side in the heat of the night it is hard to stay.

Every day

every night

we're bound up in a hard fight.

Joy and tears side by side

that's our life. Stop the rain in the night in my heart deep inside.

Hold me

I need you -

Stop the rain in the night

our love can't survive.

It's now or never

stop the rain in the night. You and me - it's a tragedy with an open end.

Take a chance for a new romance

we're cryin' for love.

Every day

every night

we're bound up in a hard fight.

Joy and tears side by side

that's our life Stop the rain in the night in my heart deep inside. . . Every day

every night

we're bound up in a hard fight.

Joy and tears side by side

that's our life.

Stop the rain in the night in my heart deep inside.

Hold me

I need you - stop the rain in the night.

Stop the rain in the night. (3x)
