

Friends in the Sky

The Dirty Nil

Oh lord help me find the light
I'm awful scarred I'm gonna die
And even though we never got along,
I'll say I was wrong
'cause you know we can be friends in the sky now I'm off the mortal coil
on the kingdom's holy soil
makes no sense at all
how I got here, but now
I'm above the clouds
Cause you know now I have friends in the sky Said it twice
