

Can You Hear Me Now

Raze

A mother cries
It seems no one is listening
Her baby died before his time
She tried to raise him right
No medal for the fight
And she's tired now
She tired now Can you hear me now
The time is coming
Can you hear me now
The time is near
Can you hear me now
The time is coming
Can you hear me now A tear in her eye
A heart full of sadness
And a memory of pain
She struggled, she fought, she tried
The years in her mind
Could never replace
The image of your face Can you hear me now
The time is coming
Can you hear me now
The time is near
Can you hear me now
The time is coming
Can you hear me now Can you hear me now
The time is coming
Can you hear me now
The time is near
Can you hear me now
The time is coming
Can you hear me now
