

# Young Love (Live From Soho)

Gavin DeGraw

There's no need to beg babe, that's my open pocket  
You take the money from me, I can scrounge  
You gave me a fever that will not come down, oh babe  
You're a young woman cast aside  
I should side, left on the side walk of my lonely life For the young lovers, taking the hill  
One plants the flag while the other is killed  
When the wine pours we raise our cups  
Young love is sacrifice, young love is tough  
Young love is innocent, young love is us What did I get into  
Now everything is untrue, oh  
Your eyes tell the lies of the lines that you said  
And now that I love you, oh oh  
I wish we never met  
Why wait? Woman I'm taking risk here that no one dares  
And you're scared, scared of the bottom, afraid of the stairs For the young lovers, taking the hill  
One plants the flag while the other is killed  
When the wine pours we raise our cups  
Young love is sacrifice, young love is tough  
Young love is innocent, young love is us Someone, I said some one has fell in love with a face  
And it scares me to let it go  
Still want it even though I get less than she takes For the young lovers, taking the hill  
One plants the flag while the other is killed  
When the wine pours we raise our cups  
Young love is sacrifice, young love is tough  
Young love is innocent, young love is us Young love is innocent, young love is us  
I found a reason to believe in someone  
I found a reason to believe in someone  
When I found, when I found, you...
