If I Could Only Say Goodbye

David Hasselhoff

I remember the day you came into my life
I remember how time stood still
You were my lover, my friend, my joy, you were my life
I loved you then and I always willHow time has its way with things
And all the changes it brings, babyIf I could only say goodbye
There will always be a part of me for you
If I could find the reason why
If I could only say goodbyeI remember the day you walked out of my life
Thought the sorrow would never end
Then the tears came and all the joy was out of my life
Felt the heartbreak would never mendSeems time's like a stormy sea
Look what it's done to you and me, babyIf I could only say goodbye
There will always be a part of me for you
If I could find the reason why
If I could only say goodbyeDid we ever live a lie?
Could I ever call you my friend?
Will you always be a part of me?
How can real love ever end?If I could only say goodbye
There will always be a part of me for you
If I could find the reason why
If I could only say goodbyeIf I could only say goodbye
I know the love will never die
If I could only say goodbye
