Brooklyn Bridge

Brooklyn Bridge

Things like this don't happen to me
Everything used to be so ordinary
From the day that I met you
Everything's changed
Feel like I'm dreamin' with my eyes open wide
Baby, you make me feel so good inside
What you've done to me is kinda hard to explain
Like standin' in Times Square on New Year's Eve
And no one is around
Like lookin' up on a summer's day
And seein' snowflakes fallin' down
Like dancin' on the Brooklyn bridge
By perfect candlelight
That's how you make me feel
Every time you say you're mine
It seems like just yesterday
That I didn't even know your name
And now I can't imagine life
Without you here, my dear
What you do to me
It's something new to me, yeah
All I'm tryin' to say is every time you're near
It's like standin' in Times Square on New Year's Eve
And no one is around
Like lookin' up on a summer's day
And seein' snowflakes fallin' down
Like dancin' on the Brooklyn bridge
By perfect candlelight
That's how you make me feel
Every time you say you're mine
And everyday it feels like
I'm fallin' in love with you again
It gets better every time
And the lights of the city they fall all around me
They can't make me feel like this
'Cause nothing compares to dancin' with you
On the Brooklyn bridge
It's like standin' in Times Square on New Year's Eve
And no one is around

Like lookin' up on a summer's day
And seein' snowflakes fallin' down
Like dancin' on the Brooklyn bridge
By perfect candlelight
That's how you make me feel
Every time you say you're mine
