Vervaceous

James

Drifting through the atmosphere
Through the afterglow
Witnessing 1,000 lives I'll blow
Where the wind blows
Falling in between the lines
Never fitting in
Someone tell me what's my crime
Too thin, I'm too thin
Due to come back down
Due to come back down
Don't wanna, don't wanna land
Due to come back down
Due to come back down
I don't wanna, don't wanna land
Don't wanna, don't wanna land
Land, land
This time I've a staring role
Hide the shape I'm in
I'm too old to sacrifice for gold and skin
For gold and skin, for gold, for gold
Down, don't want to come back
Down, don't want to land
Down, don't want to come down
Down don't want to land
Down, don't want to come down
Down don't want to land
Down, don't want to come back
Down don't want to land
Drifting through the atmosphere
Floating through this land
Sifting through 1,000 years of sand
All sand
Drifting through the atmosphere
Floating through this land
Sifting through 1,000 years of sand
All sand
Drifting through the atmosphere
Floating through this land
Sifting through 1,000 years of sand

All sand
Drifting through the atmosphere
