

Ride

Trace Adkins

Alright

Take a trip from here Bogalusa, Baton Rouge

New Orleans, Picayune

Boloxi, Pascagoula

Mobile Bay, big full moon Diesel up just north of Destin

Headed cross to Jacksonville

Love to see the world come at me

Through the bugs on a big windshield

Yeah, that's right Tear it down in Raleigh-Durham

Haven't got an hour to lose

Head up to the coast to Virginia

Read the newest Newport News Back across the Appalachians

Blowin' into Louisville

Love to feel the big wheels turnin'

Always have and always will Somewhere inside me there's a new direction

Somewhere before me there's an open road

Can't go to sleep without that diesel singin'

And somebody tellin' me "It's time to go" Let's ride

Come on boys, let's ride

Come on boys, let's ride Little Rock, Texarkana

Dallas, Fort-Worth and El Paso

110 in the desert

Pedal down, go dog go Always love to see the people

Always love to hear the crowd

Always love to bring a party

Turn it up and play it loud Somewhere inside me there's a new direction

Somewhere before me there's an open road

Can't go to sleep without that diesel singin'

And somebody tellin' me, "It's time to go" Let's ride

Come on boys, let's ride Let's ride like the wind, but I'll be back again

As sure as this world's spins around

And one day I might find a reason

To shut this thing down

But for now let's ride

Oh, no Somewhere inside me there's a new direction

Somewhere before me there's an open road

Can't go to sleep without that diesel singin'

And somebody tellin' me, tell me, "It's time to go" Let's ride

Come on boys, let's ride

Come on boys, let's ride
Yeah, let's rideLet's ride
