Wish You Well

Tremonti

Sometimes love feels like pain And sometimes I wonder if it's all the same Sometimes life feels just like rain 'Cause you never know When it's gonna fall down on you I wish you well, I wish you well On this trip to find yourself I wish you well, wish I could help But I can't help you find yourself Sometimes faith feels like doubt And sometimes I wonder if we'll ever get out Sometimes life hurts just like now But you gotta know It's all gonna come back around I wish you well, I wish you well On this trip to find yourself I wish you well, wish I could help But I can't help you find yourself Find yourself I can't help you find yourself Find yourself And we were sixteen at the time Nothing could ever change our minds We were one step below invincible And we always fought it You've never been the same You were so scared to make a name Then you threw it all away And I wish you'd come back now I wish you well, I wish you well On this trip to find yourself I wish you well, wish I could help But I can't help you find yourself I wish you well, I wish you well On this trip to find yourself I wish you well, wish I could help But I can't help you find you I wish you well, I wish you well On this trip to find yourself

I wish you well, wish I could help
But I can't help you find yourself
Find yourself
I can't help you find yourself
Find yourself
I can't help you find yourself
