Edge of Uncertainties

Waverland

The most uncertain world - and everywhere I look I feel it pull
You will understand just take my hand off into this far and distant land
Everywhere I go I hear that sound
And every corner turned that edge is found
You will understand just take my hand off into this far and distant land
Now weâ€™ve come to take you to the other side
A cool breeze and chance for you to come alive
Oh, oh-oh, now we go - letâ€™s go - the places we have never been
Visit our fascinations, oh - all dreams no explanations
Do you feel the vibe, the vibe - the places we have never been
As Iâ€™m crossinâ€™ the seldom seen - as I fade to the lonely sea
Like you find in dreams Iâ€™ll see what lies inside
Itâ€™s like a momentary glance like the beauty to your eyes that lasts
Itâ€™s the simple things that light within like the way you see
Your dreams while dreaminâ€™
To the places we have never been - I keep prayinâ€™ this will never end
Weâ€™ve come to take you to the other side
A cool breeze a chance for you to come alive
As Iâ€™m crossinâ€™ the seldom seen - as I fade to the lonely sea
Visit our fascinations - Rise in tides of places you might find
For a momentary glance of the extraordinary land
To the places we have never been - do you feel the vibe?
I keep prayinâ€™ this will never end...
