

They Don't Understand

Sham 69

They don't understand no they don't understand
They don't wanna understand When you smash a phone box
Or you break into a shop
They take you down the station
And they nick you for the lot Everyone keeps telling me I'm gonna be free
We all know we'll never be free When I take a razor and I wanna take my life
I wanna take a knife and I wanna take my life
