When It's Over

Chickenhouse

I gotta go before i lose my mind
I cant explain it or name it this time
You bring the lightning and the thunder that I drop
And keep complaining that the rain won't stop
I don't wanna waste the life you got
Fixing all the that just don't work
Working for the thing that I don't want
Chasing all the things that i don't want
Feels like i don't belong
Like someone's singing the wrong song
Who says when it's over (it's over, it's over)
Who is the one in control am i the one in control?
Who says when it's over (it's over, it's over)
You could see that i was losing touch
I couldn't say it but you were too much
You needed something that i never really had and keep complaining that i always get mad

I don't wanna be the one you want
Doing all the things that piss you off
Fighting for life that i don't want
Chasing what I know i just don't want
Feels like i don't belong
Like someone's singing the wrong song
Who says when it's over (it's over, it's over)
Who is the one in control am i the one in control?
Who says when it's over (it's over, it's over)
Whos the one in control
Am i the one in control of it all
Whos the one in control
Am i the one in control of it all
Am i the one in control of it all
Feels like i don't belong
Like someone's singing the wrong song
Who says when it's over (it's over, it's over)
Who is the one in control am i the one in control?
Who says when it's over (it's over, it's over)
